We Bring It

We Do It Right

## THE CHALLENGE

A fixture company sought to expand its product line by incorporating glass display installations. To ensure a seamless transition into this new offering, they needed a glass fabricator that could provide both high-quality products and a consultative, partnership-driven approach. Northwestern Glass Fab proved to be the ideal fit, offering the expertise and collaboration needed to support their growth.

## OUR SOLUTION

Leveraging our industry expertise and commitment to true partnership, NWGF collaborated with the client to design solutions that best fit their new store's layout and functionality. Our team provided guidance on product selection, ensuring an optimal fit for the space. Through our full-service fabrication facility, NWGF supplied 440 square feet of 3/8" clear tempered glass with flat polished edges. To ensure seamless delivery, we custom-built palletized crates and coordinated direct out-of-state shipping to the retail location—guaranteeing on-time arrival and the highest quality standards.

## RESULTS ACCOMPLISHED

By combining expert guidance with tailored fabrication solutions, NWGF empowered the client to successfully integrate glass displays into their product offerings. The precision-crafted tempered glass, delivered with meticulous care, ensured a flawless installation that met both aesthetic and functional goals. This seamless execution not only elevated the retail space but also reinforced NWGF's role as a trusted partner in driving innovation and business growth.

## WHY WAS NORTHWESTERN GLASS FAB BEST SUITED FOR THE WORK?

Navigating a new product expansion requires more than just a supplier—it demands a partner who understands the nuances of fabrication and the logistics of execution. NWGF was the perfect fit because of our ability to blend technical expertise with a consultative approach. From material selection to packaging and shipping, we anticipated challenges and provided proactive solutions tailored to the client's needs. Our commitment to precision, quality, and seamless coordination ensured the success of this project, reinforcing NWGF as a strategic partner for businesses looking to innovate with glass.

## WHAT MAKES US UNIQUE

As a Top 50 Glass Fabricator, Northwestern Glass Fab is the trusted partner for commercial interior spaces across Minnesota and beyond. Designers and furniture dealers count on our precision craftsmanship and custom glass solutions to enhance their projects. From office partitions to statement features, we deliver quality, innovation, and excellence with every project.
